STORY & SETTING

The attraction

Snuggleville's amusement park was once home to Remizione, a grotesque horror ride.

The incident

During the grand opening, the ride's designer and a group of celebrity guests stepped into the attraction... and never came out. The park was deemed haunted and soon went bankrupt.

The unexpected heroes

Two lazy journalists sneak inside to investigate chasing the story that could finally make their magazine famous.

The curse

The attraction is now ruled by Mandinga – the Devil's only son and heir.

REMITZIONE

MAIN CAST

Edmund & Berta Idle

Twin journalists behind Mysterious Mysteries magazine. At 41, both still live with their mom, writing about the unknown while dodging adulthood and anything that looks like effort.

Mandinga

The Devil's only son and heir. His father died in an unfortunate gas leak while trying to roast a sinner. As a child he dreamed of having his own horror attraction. Now he finally has one, and no one's leaving.

Sister Ham

Mandinga's assistant. Keeps the attraction in order mostly by screaming and oinking.

Lord Percival

Famous designer of horror attractions. His masterpiece Remizione promised a journey through purgatory. On opening day, he and a group of celebrities entered the ride... and never came out.
